

## Subject Index

### Volume

- A**bdominal infection in penetrating trauma, 1405  
Abstracts of The American Society for Clinical Nutrition Twelfth Annual Meeting, 449  
Acetate supply and utilization in mammals, 773  
Adipose tissue  
    effect of hydrogenated soybean fat, 16  
    increased mass, role in insulin insensitivity of obesity, 1189  
Adolescents  
    changes in blood constituents, 269  
    glutathione reductase and riboflavin nutriture, 756  
    male, dietary regulation of blood cholesterol, 61  
    nutrient intake in pregnancy, 916  
    pregnant, pantothenic acid levels, 512  
    serum growth hormone during or after malnutrition, 1179  
Aflatoxin B, urinary, effects of preservatives on detection, 13  
Age, lactose intolerance in Peruvian children, 297  
Aging  
    dietary implications of free radical theory of, 839  
    effects of nutrient restriction, 822  
    nutrition, 807, 829, 853  
    physiological aspects, 853  
Albumin, effects of dietary protein restriction on synthesis and catabolism of, 1174  
Alcoholism, blood clearance of ethanol and tolbutamide and drug-metabolizing enzymes, 135  
Alimentary tract protozoa and bacteria, 1480  
Altitude, metabolism in exposure to, 23  
Amino acids  
    free, in eccrine sweat, 661  
    lack of response to supplementary, 980  
    plasma, effects of tranylcypromine and L-cysteine on in schizophrenics, 302  
    pools after high or low methionine meal, 550  
Aminogram, plasma  
    effects of dietary protein restriction, 1174  
    in infectious *Escherichia coli* diarrhea, 11  
Anaerobic methodology  
    evolution, 1295  
    theory, 1299  
Anaerobiosis, syringe methods, 1318  
Anemia  
    iron-deficiency  
        carbohydrate metabolism, 262  
        in Iranians with high iron intakes, 1143  
    yerakon, 626  
Antibody to Bacteroidaceae, 1351  
Ascariasis, malabsorption syndrome, 1276  
*Ascaridia galli*, protein digestion and absorption in chick, 311  
Ascitic fluid, vitamin interchange between blood and, 125  
ASCN  
    abstracts, 449  
    call for abstracts, 1038, 1219  
    program, 447  
Ascorbic acid, plasma concentrations and oral contraceptives, 684  
Atherosclerosis, carbohydrates, 470  
Athletes, unexpected deaths, 649
- B**acteria: *see also* Infection, Microorganisms  
alimentary tract protozoa, 1480  
anaerobic  
    Hungate culture technique, 1324  
    identification, 1306  
    isolation and identification techniques, 1335  
    roll-tube techniques, 1314  
    use of anaerobic glove boxes for cultivation, 1329  
enteric, interactions in insects, 1459  
intestinal  
    cancer, 1399  
    plasmids in, 1455  
morphology of implantation in gnotobiotic rats, 1467  
nutritional consequences of overgrowth of in small intestine, 1409  
Bacteroidaceae  
    endotoxin detection by *Limulus* assay, 1452  
    human antibody to, 1351  
Bile acids, effect on intestinal microflora, 1418  
Birth, season of, body weight, 279  
Blood: *see also* Plasma, Serum  
    changes in constituents of in adolescents, 269  
    pantothenic acid levels in pregnant teenagers, 512  
    vitamin interchange between ascitic fluid and, 125  
Body composition of premature infants, relation to nutrition, 1153  
Body weight  
    correlation with skin fold in children, 861  
    season of birth, 279  
Bone density, diet, 905, 908  
Bowel, small  
    evaluation of biopsies, 1108  
    milk and lactose intolerance after distal resection, 655  
Burmese, iron deficiency, 210
- C**alcium  
    human requirement, 518  
    seasonal changes in urinary excretion of, 652  
Caloric intake  
    life duration, 834  
    obesity and physical activity, 390

- Caloric restriction  
 body composition changes, 67  
 changes in skin surface lipid composition, 365  
 glucose tolerance, 41  
 tryptophan-niacin interrelationships, 572
- Cancer, intestinal bacteria, 1399
- Carbohydrates  
 dietary, work capacity, 85  
 metabolism in iron-deficiency anemia due to dietary and zinc deficiencies, 262  
 nitrogen and mineral excretion after test meal of, 677  
 serum lipids and atherosclerosis, 470
- Carboxylase activity, liver acetyl-CoA, effect of hydrogenated soybean fat, 16
- Casein-lactalbumin utilization, 912
- Cecum, avian, anaerobic bacteria, 1475
- Children: *see also* Infants dietary survey in Thailand, 730  
 environment and growth, 1184  
 folate requirements, 147, 152  
 gastrointestinal flora, 1380  
 gastrointestinal flora in protein-calorie malnutrition, 1118  
 influence of recurrent infections on nutrition and growth, 1267  
 lack of response to amino acid supplements, 980  
 lactose intolerance, 297, 467  
 malnourished  
   acquired disaccharide intolerance, 664  
   morbidity of diarrheal and respiratory infections, 690  
 malnourished and recovered, urea metabolism with high or low protein diet, 1261  
 morphology of duodenojejunal mucosa in protein-calorie malnutrition, 1092  
 plasma tryptophan in Down's syndrome, 976  
 preschool, nutrition programs, 595  
 serum growth hormone during or after malnutrition, 1179  
 skin fold-body weight correlations, 861  
 skin-fold thickness, 576  
 xylose absorption and growth retardation, 1227, 1230
- Cholesterol  
 blood, dietary regulation in adolescent males, 61  
 dietary, effect on serum cholesterol, 589  
 plasma, effects of diet on in pediatric familial type II hyperlipoproteinemia, 224  
 serum, dietary fatty acids, 53
- Chromium  
 changes in concentration with distance from hair roots, 380  
 concentrations in hair of infants, 376  
 effects of washing and environment on concentration in hair, 384
- Comments in Biochemistry, 85, 182, 606, 773, 1010, 1189
- Comments in Gastroenterology, 612
- Computer program for calculating nutrients, 969
- Contraceptives  
 oral  
   plasma ascorbic acid concentrations, 684
- urinary excretion of 3-hydroxyanthranilic acid, 494
- steroid, effect on lactation, 1202
- Copper, iron metabolism, 1022
- Coproantibodies, source and protective function in intestinal disease, 1357
- Creatine turnover, effects of diet and infection, 371
- Cysteine, effects on plasma amino acids in schizophrenics, 302
- D**Death, unexpected, of athletes, 649
- Development, effects of nutrient restriction, 822
- Diarrhea  
 infantile infectious, sugar malabsorption, 1248  
 infectious *Escherichia coli*, plasma aminogram, 11  
 morbidity in of malnourished children, 690  
 weaning, 565  
   xylose malabsorption, 1230
- Diarrhea-malabsorption-malnutrition cycle, 612
- Diet  
 alcohol or solid super, recovery from chronic hepatic lesions, 881  
 bone density, 905, 908  
 carbohydrates, work capacity, 85  
 casein-lactalbumin vs. spun soy protein, 912  
 children and pregnant women in Thailand, 730  
 creatine turnover, 371  
 dissociation of obesity-hyperinsulinism relationship, 746  
 effect of cholesterol in, on serum cholesterol, 589  
 effects on plasma cholesterol in pediatric familial type II hyperlipoproteinemia, 224  
 fatty acid composition of and serum cholesterol, 53  
 free radical theory of aging, 839  
 high fat, of Eskimo, 737  
 high or low protein, urea metabolism, 1261  
 infant, vitamin E, 933  
 low in folic acid, for study of folate deficiency in protein-calorie malnutrition, 147  
 low protein, nitrogen excretion in sweat by preadolescent girls on, 275  
 pantothenic acid levels in pregnant teenagers, 512  
 protein quality in children, 875  
 recommended allowance for vitamin E, 257  
 regulation of blood cholesterol in adolescent males, 61  
 reliability of questionnaire on, 91  
 urbanization, 348  
 vegetarian, nutritional value, 647  
 zinc intake, 582
- Dietary Management and Therapy, 91
- Disaccharide, acquired intolerance in malnourished children, 664
- Down's syndrome, plasma tryptophan, 976
- Duodenojejunal mucosa, morphology in protein-calorie malnutrition, 1092

**T**iamin, urinary, thiocchrome procedure for determination, 273

**T**hiocchrome, determination of urinary thiamin, 273

**T**olbutamide, blood clearance of and drug-metabolizing enzymes in alcoholics, 135

**T**ranycypramine, effects on plasma amino acids in schizophrenics, 302

**T**rauma, penetrating abdominal, infection in, 1405

**T**riglycerides, medium-chain, regression of alcoholic fatty liver, 175

**T**ryptophan

- acute fasting and caloric restriction, 572

plasma, in children with Doron's syndrome, 976

**U**lcers, stress, vitamin E, 864

**U**ndernutrition: *see also* Malnutrition maternal, effects on offspring, 812

progressive protein, intestinal enzyme activities, 485

relative resistance of later phase of myelination to, 7

**U**rbanization, diet and potential health effects, 348

**U**rea metabolism in malnourished and recovered children on high or low protein diet, 1261

**U**rea nitrogen/creatinine ratio, urinary, recent protein intake, 539

**U**rine

- effect of preservatives on detection of aflatoxin B<sub>1</sub>, 13
- pantothenic acid levels in pregnant teenagers, 512
- seasonal changes in calcium excretion, 652
- thiocchrome procedure for determination of thiamin, 273

**U**ropepsin test, Segal, in screening for hypovitaminosis B<sub>12</sub>, 282

**V**egetarians

- nutritional value of diet, 647

osteoporosis, 555

**V**illus epithelial cell, metabolism and aging of in tropical sprue, 844

**V**itamins

- interchange between ascitic fluid and blood, 125
- metabolism of in sandfly fever, 1165

**V**itamin A

- liver, in protein-calorie malnutrition, 412
- tissue concentrations in different geographical areas, 291

**V**itamin B<sub>6</sub>

- dietary deficiency of, and urinary excretion of 3-hydroxyanthranilic acid, 494
- nutritional status, 629

**V**itamin B<sub>12</sub>

deficiency

- leukocyte methylmalonyl-CoA mutase, 695

Segal uropepsin test, 282

double-tracer test of absorption, 703

serum and total body, 395

**V**itamin E

- adequacy of infant diets, 933

plasma, newborns and mothers, 480

recommended dietary allowance, 257

stress ulcers, 864

**W**eanling diarrhea, 565, 1230

Weight loss, energy expenditure during, 971

Welfare recipients, nutrition of preschool children of, 74

**Wheat**

iron absorption, 317

protein quality, 559

**Wine**, 361

Work capacity, dietary carbohydrate, 85

Workshop on malabsorption and nutrition, 1041, 1221

**X**ylose, impairment of absorption in systemic bacterial infections, 490

**Xylose malabsorption**

age, growth retardation, and weanling diarrhea,

1230

growth retardation, 1227

**Yeast**, morphology of bacterial implantation, 1467

Yerakon, jaundice or anemia, 626

**Zinc**

dietary intake, 582

tissue concentration, 672

## CONTENTS

## VOLUME 25

Number 1, January 1972

### Presidential address

- 1 The responsibility of a professional society. *C. U. Lowe*

### Letters to the editor

- 6 Effect of leucine on enzymes of tryptophan metabolism. *B. S. Narasinga Rao and Gafforunnisa*

### Brief communications

- 7 Relative resistance of the later phase of myelination to severe undernutrition in miniature swine. *M. A. Fishman, A. L. Prensky, M. E. Tumbleson and B. Daftari*  
11 Plasma aminogram in pigs with infectious *Escherichia coli* diarrhea. *T. T. Isoun, C. K. Whitehair and W. G. Bergen*  
13 Urinary aflatoxin B and effects of preservatives on its detection. *H. A. B. Parpia, V. Sreenivasamurthy, T. Shantha, A. Shankaramurti, S. Srikantia and I. Amla*

### Original communications

- 16 Effect of hydrogenated soybean fat on rat adipose tissue and on liver acetyl-CoA carboxylase and fatty acid synthetase activities. *P. O. Egwim and D. S. Sgoutas*  
23 Metabolic aspects of acute altitude exposure (4,300 meters) in adequately nourished humans. *C. F. Consolazio, H. L. Johnson, H. J. Krzywicki and T. A. Daws*  
30 Further investigations of iodine deficiency in the etiology of endemic goiter. *C. H. Thilly, F. Delange and A. M. Ermans*  
41 Effect of fasting, caloric restriction, and refeeding on glucose tolerance of normal men. *J. W. Anderson and R. H. Herman*  
53 Diets of different fatty acid composition producing identical serum cholesterol levels in man. *F. Grande, J. T. Anderson and A. Keys*  
61 Dietary regulation of blood cholesterol in adolescent males: a pilot study. *R. B. McGandy, B. Hall, C. Ford and F. J. Stare*  
67 Metabolic aspects of calorie restriction (420 kcal): body composition changes. *H. J. Krzywicki, C. F. Consolazio, H. L. Johnson and N. F. Witt*

### Special article

- 74 Nutritional status of preschool children of Marin County welfare recipients. *M. Ruffin, D. H. Calloway and S. Margen*

### Comments in biochemistry

- 85 Dietary carbohydrate and work capacity. *C. F. Consolazio and H. L. Johnson*

**Dietary management and therapy**

- 91 Reliability of a dietary questionnaire. *A. Reshef and L. M. Epstein*

**Perspectives in nutrition**

- 96 Principles of parenteral therapy. *M. E. Rubini and R. E. Chojnacki*

**International nutrition**

- 114 Lactase deficiency in Indians. *V. Reddy and J. Pershad*

**Nutrition news**

- 120 McCollum Award

- 121 Announcement to authors

**Number 2, February 1972**

**Letters to the editor**

- 123 Fluoride content of sea salt in dental caries prevention. *D. M. Hadjimarkos*

**Brief communications**

- 125 Vitamin interchange between ascitic fluid and blood in man. *M. F. Sorrell, O. Frank, H. Aquino, A. D. Thomson, M. M. Howard and H. Baker*

**Original communications**

- 131 Effect of intravenously administered fat on serum insulin levels. *A. G. Coran, P. E. Cryer and D. L. Horwitz*

- 135 Comparison of blood clearance of ethanol and tolbutamide and the activity of hepatic ethanol-oxidizing and drug-metabolizing enzymes in chronic alcoholic subjects. *M. N. Shah, B. A. Clancy and F. L. Iber*

- 140 Human susceptibility to oral monosodium L-glutamate. *R. A. Kenney and C. S. Tidball*

- 147 Folate requirements of children. I. A formula diet low in folic acid for study of folate deficiency in protein-calorie malnutrition. *C. I. Waslien, K. Kamel, Z. El-Ramly, J. P. Carter, K. A. Mourad, A.-K. Khattab and W. J. Darby*

- 152 Folate requirements of children. II. Response of children recovering from protein-calorie malnutrition to graded doses of parenterally administered folic acid. *K. Kamel, C. I. Waslien, Z. El-Ramly, S. Guindy, K. A. Mourad, A.-K. Khattab, N. Hashem, V. N. Patwardhan and W. J. Darby*

- 166 Metabolic and bactericidal activities of leukocytes in protein-calorie malnutrition. *R. J. Selvaraj and K. S. Bhat*

- 175 Regression of alcoholic fatty liver in the rat by medium-chain triglycerides. *R. C. Theuer, W. H. Martin, T. J. Friday, B. L. Zoumas and H. P. Sarett*

**Comments in biochemistry**

- 182 Is histidine an essential amino acid in man? *F. B. Stifel and R. H. Herman*

**Perspectives in nutrition**

- 186 Nutrition and development: the view of the planner. *A. Berg and R. Muscat*

**International nutrition**

- 210 Iron deficiency in Burmese population groups. *Aung-Than-Batu, U Hla-Pe, Thein-Than and Khin-Kyi-Nyunt*  
 219 The creation of growth standards: a committee report.

**Symposium**

- Factors in childhood that influence the development of atherosclerosis and hypertension. Guest editor *D. S. Fredrickson*  
 222 Introduction. *D. S. Fredrickson*  
 225 Pediatric familial type II hyperlipoproteinemia: effects of diet on plasma cholesterol in the first year of life. *C. J. Glueck and R. C. Tsang*  
 232 Salt and hypertension. *L. K. Dahl*  
 246 Research in infant nutrition: the untapped well. *C. U. Lowe*

**Number 3, March 1972****Guest editorial**

- 257 Recommended dietary allowance for vitamin E. *L. A. Witting*

**Letters to the editor**

- 262 Carbohydrate metabolism in severe and longstanding iron-deficiency anemia due to dietary and zinc deficiencies. *M. Aksoy*  
 263 Hair as a biopsy material. *L. M. Klevay*

**Brief communications**

- 265 Effect of hepatic disease on liver flavin and protein levels. *W. J. Jusko and G. P. Lewis*  
 269 Changes in blood constituents of adolescents. *E. H. Morse, R. P. Clarke, S. B. Merrow and D. E. Keyser*  
 273 Modified thiochrome procedure for the determination of urinary thiamin. *G. A. Leveille*  
 275 Excretion of nitrogen in sweat by preadolescent girls consuming low protein diets. *N. P. Spence, R. P. Abernathy and S. J. Ritchey*  
 279 Season of birth and relative body weight. *R. W. Hillman and H. C. Conway*  
 282 Evaluation of the Segal uropepsin test in screening for hypovitaminosis B<sub>12</sub>. *M. Trowbridge, Jr., R. C. Wadsworth and E. L. Moffitt*

**Original communications**

- 286 Liver lipid changes in experimental protein malnutrition. *G. O. Taylor and V. A. Ziboh*  
 291 Vitamin A concentration in human tissues collected from five areas in the United States. *N. Raica, Jr., J. Scott, L. Lowry and H. E. Sauberlich*  
 297 Lactose intolerance in Peruvian children: effect of age and early nutrition. *D. M. Paige, E. Leonardo, A. Cordano, J. Nakashima, B. Adrianzen T. and G. G. Graham*  
 302 Effects of tranylcypromine and L-cysteine on plasma amino acids in controls and schizophrenic patients. *J. M. Davis, J. K. Spaide and H. E. Himwich*  
 311 Protein digestion and absorption in the chick: effect of *Ascaridia galli*. *S. Hurwitz, N. Shamir and A. Bar*

- 317 Food iron absorption in man. I. Isotopic exchange between food iron and inorganic iron salt added to food: studies on maize, wheat, and eggs.  
*E. Björn-Rasmussen, L. Hallberg and R. B. Walker*

#### Perspectives in nutrition

- 324 Lead poisoning: subculture as a facilitating agent? *P. Chatterjee and J. H. Gettman*  
 331 Economics as an aid to nutritional change. *B. Popkin and R. Lidman*

#### International nutrition

- 345 Nutrition as a priority in African development. *B. Vahlquist*  
 348 Urbanization, diet, and potential health effects in Palau. *J. H. Hankin and L. E. Dickinson*

#### Reports of meetings

- 354 The Third Western Hemisphere Nutrition Congress. *P. L. White and N. Selvev*  
 357 Nutrition news  
 359 Program, Twelfth Annual Meeting, ASCN

**Number 4, April 1972**

#### Guest editorial

- 361 Wine: a food throughout the ages. *S. P. Lucia*

#### Letters to the editor

- 363 A somatic quotient. *D. S. McLaren and A. A. Kanawati*

#### Brief communications

- 365 Changes in skin surface lipid composition induced by severe caloric restriction in man. *D. T. Downing, J. S. Strauss and P. E. Pochi*  
 368 Satiety and obesity. *P. H. Linton, M. Conley, C. Kuechenmeister and H. McClusky*  
 371 Effects of diet and infection on creatine turnover in the rat. *J. C. Waterlow, R. J. Neale, L. Rowe and I. Palin*

#### Original communications

- 376 Hair chromium concentrations of human newborn and changes during infancy. *K. M. Hambridge and J. D. Baum*  
 380 Changes in hair chromium concentrations with increasing distances from hair roots. *K. M. Hambridge, M. L. Franklin and M. A. Jacobs*  
 384 Hair chromium concentration: effects of sample washing and external environment. *K. M. Hambridge, M. L. Franklin and M. A. Jacobs*  
 390 Calorie intake, obesity, and physical activity. *J. E. Lincoln*  
 395 The long-term relationship between serum vitamin B<sub>12</sub> and total body vitamin B<sub>12</sub>. *K. Boddy and J. F. Adams*  
 401 Model for measuring the dietary absorption of heme iron: test with a complete meal. *M. Layrisse and C. Martínez-Torres*  
 412 Liver vitamin A in protein-calorie malnutrition. *M. S. Zaklama, M. K. Gabr, S. El Maraghy and V. N. Patwardhan*

**Perspectives in nutrition**

- 419 Nutrition intervention programs from a market viewpoint. *T. M. Hammonds and R. E. Wunderle*

**Methods in nutrition**

- 425 An enzymatic measurement of the riboflavin status in man. *J. A. Tillotson and E. M. Baker*

**International nutrition**

- 432 Nutritional survey in rural population of Kumaon Hill area, North India. *B. N. Tandon, K. Ramachandran, M. P. Sharma and V. K. Vinayak*
- 437 Biochemical assessment of the nutritional status of the Eskimos of Wainwright, Alaska. *H. E. Sauberlich, W. Goad, Y. F. Herman, F. Milan and P. Jamison*

**446 Nutrition news**

- 447 Program, Twelfth Annual Meeting, ASCN

- 449 Abstracts

**Number 5, May 1972**

**Letters to the editor**

- 463 "Fructose absorption in man." *H. F. Sassoon*
- 463 The author replies. *G. C. Cook*
- 464 Fiber: a natural hypocholesteremic agent. *H. Trowell*
- 465 "The responsibility of a professional society." *J. Mayer*

**Brief communications**

- 467 Response of lactose-intolerant children to different lactose levels. *D. M. Paige, E. Leonardo, J. Nakashima, B. Adrianzen T. and G. G. Graham*

**Original communications**

- 470 Effects of simple and complex carbohydrates on serum lipids and atherosclerosis in nonhuman primates. *C. M. Lang and C. H. Barthel*
- 476 Serum electrolytes in undernourished Sinclair(S-1) miniature swine. *M. E. Tumbleston, M. F. Burks, P. S. Evans and D. P. Hutcheson*
- 480 Levels of vitamin E in the plasma of newborn infants and of the mothers. *P. J. Leonard, E. Doyle and W. Harrington*
- 485 Progressive protein undernutrition and intestinal enzyme activities in monkeys. *V. Kumar and H. P. Chase*
- 490 Impairment of D-xylose absorption in Zambian patients with systemic bacterial infections. *G. C. Cook*
- 494 Effects of dietary vitamin B<sub>6</sub> deficiency and oral contraceptives on the spontaneous urinary excretion of 3-hydroxyanthranilic acid. *S. A. Price, D. P. Rose and P. A. Toseland*
- 499 Patterns of insulin response to glucose in protein-calorie malnutrition. *D. J. Becker, B. L. Pimstone, J. D. L. Hansen, B. MacHutchon and A. Drysdale*
- 506 Effect of spacing protein intake on nitrogen balance in normal children. *I. Barja, H. Araya, P. Muñoz, L. Vega, A. Arteaga and M. A. Tagle*
- 512 Blood, urine, and dietary pantothenic acid levels of pregnant teenagers. *S. H. Cohenour and D. H. Calloway*

**Perspectives in nutrition**

- 518 The human requirement of calcium: should low intakes be supplemented?  
*A. R. P. Walker*

**Methods in nutrition**

- 531 Preparation of  $^{131}\text{I}$ -labeled fat emulsions and distribution of the label in serum lipoproteins and lipid classes following intravenous infusion to normal and hyperlipemic subjects. *G. Lakshminarayana, P. W. O'Connell, F. A. Kruger, G. J. Hamwi and D. G. Cornwell*

**International nutrition**

- 539 Urinary urea nitrogen/creatinine ratio as indicator of recent protein intake in field studies. *W. K. Simmons*
- 543 Nutrition news
- 544 Errata

**Number 6, June 1972**

**Brief communications**

- 545 Small intestinal deficit in pellagra. *S. K. Mehta, S. Kaur, G. Avasthi, N. N. Wig and P. N. Chhuttani*
- 550 Amino acid pools and hepatic enzyme activities in rats fed a meal of high or low methionine content. *A. Sanchez, M. E. Swendseid, A. J. Clark and C. Umezawa*

**Original communications**

- 555 Incidence of osteoporosis in vegetarians and omnivores. *F. R. Ellis, S. Holesh and J. W. Ellis*
- 559 Nitrogen retention of adults fed six grams of nitrogen from combinations of rice, milk, and wheat. *J. M. Howe, H. E. Clark, J. E. Tewell and M. M. Senchak*
- 564 Physiological mechanism and pathogenesis of weanling diarrhea. *W. P. T. James, B. S. Drasar and C. Miller*
- 572 Tryptophan-niacin interrelationships during acute fasting and caloric restriction in humans. *C. F. Consolazio, H. L. Johnson, H. J. Krzywicki and N. F. Witt*
- 576 Triceps and subscapular skin-fold thickness in French-Canadian school-age children in Montreal. *M. Jeníček and A. Demirjian*
- 582 Dietary zinc intake in man. *D. Osis, L. Kramer, E. Wiatrowski and H. Spencer*
- 589 Effect of dietary cholesterol on serum cholesterol in man. *F. H. Mattson, B. A. Erikson and A. M. Kligman*

**Special article**

- 595 Nutrition programs for preschool children. *D. B. Jelliffe and E. F. P. Jelliffe*

**Comments in biochemistry**

- 606 Role of isozymes in metabolic control. *F. B. Stifel and R. H. Herman*

**Comments in gastroenterology**

- 612 A holistic approach to the interruption of the diarrhea-malabsorption-malnutrition cycle. *T. D. Luckey and B. R. Maier*

**Perspectives in nutrition**

- 615 Nutritional potential of nitrogen recycling in man. *P. Richards*  
626 Yerakon in the Bible and Talmud: jaundice or anemia? *F. Rosner*

**Methods in nutrition**

- 629 Biochemical assessment of the nutritional status of vitamin B<sub>6</sub> in the human  
*H. E. Sauberlich, J. E. Canham, E. M. Baker, N. Raica, Jr., and Y. F. Herman*

**Number 7, July 1972**

**Guest editorial**

- 643 Current status of monosodium glutamate. *H. Ghadimi and S. Kumar*

**Letters to the editor**

- 647 Nutritional value of a vegetarian diet. *Tran Vy*  
647 Losses of vitamins and trace minerals resulting from processing and preservation  
of foods. *M. Orr and B. K. Watt*  
648 The author replies. *H. A. Schroeder*  
649 Unexpected death of athletes. *E. W. Watt*  
650 "Reliability of a dietary questionnaire." *W. S. Hartroft*  
650 Authors' reply. *A. Reshef and L. M. Epstein*

**Brief communications**

- 652 Seasonal changes in the urinary excretion of calcium. *D. B. Morgan, R. S. Rivlin  
and R. H. Davis*  
655 Milk and lactose intolerance following distal small bowel resection. *S. Wapnick*  
661 Quantitative study of free amino acids in human eccrine sweat during normal  
conditions and exercise. *N. Liappis and H. Hungerland*

**Original communications**

- 664 Acquired disaccharide intolerance in children with malnutrition. *S. Bilir*  
672 Zinc concentration in human tissues. *L. D. McBean, J. T. Dove, J. A. Halsted  
and J. C. Smith, Jr.*  
677 Nitrogen and mineral excretion after carbohydrate test meals. *F. L. Meyer,  
K. Cooper and M. Bolick*  
684 Plasma ascorbic acid concentrations and oral contraceptives. *J. M. Rivers and  
M. M. Devine*  
690 Longitudinal study of the morbidity of diarrheal and respiratory infections in  
malnourished children. *J. W. James*  
695 Leukocyte methylmalonyl-CoA mutase. I. Vitamin B<sub>12</sub> deficiency. *E. Contreras  
and A. J. Giorgio*  
703 A double-tracer test of the oral absorption of <sup>57</sup>Co- and <sup>58</sup>Co-vitamin B<sub>12</sub> using  
a whole-body monitor: clinical experience and technical factors. *K. Boddy,  
M. E. Mahaffy and G. Will*

**Special article**

- 709 Nutrition education in the medical school: experience with an elective course  
for first-year medical students. *R. T. Frankle, E. R. Williams and G. Christakis*

**Methods in nutrition**

- 720 A rapid tissue technique for the field assessment of protein-calorie malnutrition.  
*R. B. Bradfield*

**International nutrition**

- 730 Dietary survey of preschool children and expectant women in Soongnern District, Nakorn Rajsima Province, Thailand. *A. Chandrapond and S. Tansuphasisiri*

**Number 8, August 1972**

**Guest editorial**

- 737 Alaskan Artic Eskimo: responses to a customary high fat diet. *K.-J. Ho, B. Mikkelsen, L. A. Lewis, S. A. Feldman and C. B. Taylor*

**Original communications**

- 746 Dissociation of the obesity-hyperinsulinism relationship following dietary restriction and hyperalimentation. *E. J. Drenick, A. S. Brickman and E. M. Gold*
- 756 Application of the erythrocyte glutathione reductase assay in evaluating riboflavin nutritional status in a high school student population. *H. E. Sauberlich, J. H. Judd, G. E. Nichoalds, H. P. Broquist and W. J. Darby*
- 763 Effect of oral lactobacillus seedings on fecal lactobacillus counts. *D. Paul and L. C. Hoskins*
- 766 Malnutrition and mental development. *F. Mönckeberg, S. Tisler, S. Toro, V. Gattás and L. Vega*

**Comments in biochemistry**

- 773 Supply and utilization of acetate in mammals. *F. J. Ballard*

**Methods in nutrition**

- 780 Analysis of sterols: application to sterol balance studies. *M. T. R. Subbiah*

**International nutrition**

- 789 Food taboos among the Orang Asli in West Malaysia: a potential nutritional hazard. *J. M. Bolton*
- 800 Hypovitaminosis A in the sugarcane zone of southern Pernambuco State, Northeast Brazil. *R. M. Varela, S. G. Teixeira and M. Batista*

**805 Nutrition news****Symposium**

- Nutrition and aging. Guest editor *D. M. Watkin*

**Part I**

- 809 Introduction. *D. M. Watkin*
- 812 Maternal undernutrition and its long-term effects on the offspring. *L. M. Roeder and B. F. Chow*
- 822 Development, aging, and life duration: effects of nutrient restriction. *A. J. Kahn*
- 829 Nutrition, aging, and genetic program. *C. H. Barrows, Jr.*
- 834 Length of life and caloric intake. *M. H. Ross*

- 839 Free radical theory of aging: dietary implications. *D. Harman*  
844 Metabolism and aging of the villus epithelial cell in tropical sprue. *J. J. Vitale, H. Velez M. and E. E. Hellerstein*  
853 Physiological aspects of aging: relationship to nutrition. *A. N. Exton-Smith*

**Number 9, September 1972**

**Brief communications**

- 861 Skin fold-body weight correlations in Negro and white children of elementary school age. *R. M. Malina*  
864 Effect of vitamin E on the development of stress-produced gastric ulceration in the rat. *J. A. Kangas, K. M. Schmidt and G. F. Solomon*  
867 Lactose intolerance in Alaskan Indians and Eskimos. *J. W. Duncan and E. M. Scott*  
869 Lactase deficiency in Mexican-American males. *J. E. Dill, M. Levy, R. F. Wells and E. Weser*  
871 Comparing nutritional status methods in a Guatemalan survey. *M. A. Nammacher, R. B. Bradfield and G. Arroyave*

**Original communications**

- 875 Dietary protein quality in infants and children. VIII. Wheat- or oat-soy mixtures. *G. G. Graham, J. M. Baerl, R. P. Placko and A. Cordano*  
881 Recovery from chronic hepatic lesions in rats fed alcohol and a solid super diet. *E. A. Porta, O. R. Koch and W. S. Hartroft*  
897 Essential fatty acid deficiency in infants induced by fat-free intravenous feeding. *J. R. Paulsrud, L. Pensler, C. F. Whitten, S. Stewart and R. T. Holman*  
905 Bone density and dietary findings of 409 Tennessee subjects. I. Bone density considerations. *L. M. Odland, R. L. Mason and A. I. Alexeff*  
908 Bone density and dietary findings of 409 Tennessee subjects. II. Dietary considerations. *L. M. Odland, R. L. Mason and A. I. Alexeff*  
912 Comparative utilization of casein-lactalbumin and spun soy protein diets by human subjects. *E. H. Morse, S. B. Merrow, D. E. Keyser and R. P. Clarke*  
916 Assessment of nutritional status of teenage pregnant girls. I. Nutrient intake and pregnancy. *J. C. King, S. H. Cohenour, D. H. Calloway and H. N. Jacobson*

**Perspectives in nutrition**

- 926 Ischemic heart disease and dietary fiber. *H. Trowell*  
933 Vitamin E: adequacy of baby diets. *K. C. Davis*  
939 An approach to nutrition planning. *A. Berg and R. Muscat*

**Symposium**

- 955 Interpretation of the National Nutrition Survey—three points of view.  
Guest editor *C. U. Lowe*  
Introduction. *G. M. Owen*  
956 Viewpoint of a public administrator. *I. J. Lewis*  
961 Viewpoint of a United States Senator. *W. F. Mondale*  
964 Viewpoint of a nutritionist. *C. U. Lowe*

Number 10, October 1972

**Letters to the editor**

- 969 Computer program for calculating nutrients. *R. Carol*  
969 A nutritionist's view on economic policy planning. *P. R. Payne*

**Brief communications**

- 971 Energy expenditure of obese women during weight loss. *R. B. Bradfield and M. Jourdan*

**Original communications**

- 976 Plasma tryptophan response curve and tryptophan requirements of children with Down's syndrome. *K. Tontisirin, V. R. Young and N. S. Scrimshaw*  
980 Lack of response to amino acid supplements by preadolescent girls. *R. P. Abernathy, S. J. Ritchey and J. C. Gorman*  
983 Facilitation of iron absorption by ferric fructose. *G. W. Bates, J. Boyer, J. C. Hegenauer and P. Saltman*  
987 Effects of neomycin in obese patients with jejunostomy. *D. Schwob, A. Rubulis, E. C. Lim, C. D. Sherman and W. W. Faloon*  
992 Effect of neonatal folic acid deprivation on later growth and susceptibility to *Shigella* infection in the guinea pig. *J. D. Nelson and K. C. Haltalin*

**Special article**

- 997 Nutrition teaching at the Mount Sinai School of Medicine: a three-year experience. *G. Christakis, R. Frankle, R. E. Brown, R. Jeffers, J. Walter and K. Deuschle*

**Comments in biochemistry**

- 1010 Phosphoenolpyruvate carboxykinase. I. Its role in gluconeogenesis. *R. W. Hanson and A. J. Garber*

**Perspectives in nutrition**

- 1022 Review: Relationships of copper and molybdenum to iron metabolism. *M. S. Seelig*

**Nutrition news****Symposium**

- ↗
- Workshop on malabsorption and nutrition. **Part I.**  
Guest editors *I. H. Rosenberg and N. S. Scrimshaw*
- 1045 Preface. *I. H. Rosenberg and N. S. Scrimshaw*  
1046 Introduction to Part I. *I. H. Rosenberg and N. S. Scrimshaw*
- Session I—Subclinical malabsorption: prevalence and epidemiology
- 1047 Tropical enteropathy and tropical sprue. *S. J. Baker and V. I. Mathan*  
1056 Subclinical malabsorption in developing countries. *J. Lindenbaum, J. W. Harmon and C. D. Gerson*  
1062 Subclinical malabsorption in Thailand. I. Intestinal absorption in Thai children. *G. T. Keusch*  
1067 Subclinical malabsorption in Thailand. II. Intestinal absorption in American military and Peace Corps personnel. *G. T. Keusch, A. G. Plaut and F. J. Troncale*  
1074 Discussion and summation—Session I

**Session II—Tropical jejunitis (tropical enteropathy): morphology, specificity**

- 1080 Morphologic characteristics of jejunal biopsies from asymptomatic Haitians and Puerto Ricans. *E. A. Schenk, F. A. Klipstein and J. T. Tomasini*  
 1084 Intestinal, functional, and morphologic abnormalities in severely protein-malnourished adults. *L. G. Mayoral, K. Tripathy, O. Bolaños, H. Lotero, E. Duque, F. T. García and J. Ghitis*  
 1092 Morphological aspects of the duodenal mucosa in protein-calorie malnourished children and during recovery. *R. E. Schneider and F. E. Viteri*  
 1103 Discussion and summation—Session II  
 1108 Appendix: A protocol for the evaluation of small bowel biopsies. *E. A. Schenk and F. A. Klipstein*

**Session III—Bacterial flora and tropical malabsorption**

- 1118 Gastrointestinal flora of children with protein-calorie malnutrition. *L. J. Mata, F. Jiménez, M. Cordón, R. Rosales, E. Prera, R. E. Schneider and F. Viteri*  
 1127 Microflora of the gastrointestinal tract in tropical enteritis: a current appraisal. *S. L. Gorbach*  
 1131 Discussion—Session III

**Number 11, November 1972**

**Original communications**

- 1135 Absorption of pteroylglutamate and dietary folates in man. *N. Grossowicz, M. Rachmilewitz and G. Izak*  
 1140 The endocrine pancreas after kwashiorkor. *S. K. Kajubi*  
 1143 Iron-deficiency anemia in an Iranian population associated with high intakes of iron. *M. Haghshenass, M. Mahloudji, J. G. Reinhold and N. Mohammadi*  
 1147 Nutritional value of foods in relation to their oxalic acid content. *P. P. Singh, L. K. Kothari, D. C. Sharma and S. N. Saxena*  
 1153 Body composition of premature infants: relation to nutrition. *B. M. Kagan, V. Stanincova, N. S. Felix, J. Hodgman and D. Kalman*  
 1165 Experimentally induced sandfly fever and vitamin metabolism in man. *W. R. Beisel, Y. F. Herman, H. E. Sauberlich, R. H. Herman, P. J. Bartelloni and J. E. Canham*  
 1174 Effects of dietary protein restriction on albumin synthesis, albumin catabolism, and the plasma aminogram. *L. Kelman, S. J. Saunders, L. Frith, S. Wicht and A. Corrigan*  
 1179 Serum growth hormone and growth activity in children and adolescents with present or past malnutrition. *R. Youlton, J. Riesco, J. Litvak and N. Zlatar*

**Special article**

- 1184 Environmental factors affecting the growth of children. *G. G. Graham*

**Comments in biochemistry**

- 1189 Role of the increased adipose tissue mass in the apparent insulin insensitivity of obesity. *J. P. Flatt*  
 1193 Diagnosis and classification of reactive hypoglycemia based on hormonal changes in response to oral and intravenous glucose administration. *F. D. Hofeldt, S. Dippe and P. H. Forsham*

**Perpectives in nutrition**

- 1202 Effect of steroid contraceptives on lactation. *J. G. Chopra*

**International nutrition**

- 1215 Topics of nutrition in Japan. *T. Oiso and R. Suzue*

- 1219 Nutrition news

**Symposium**Workshop on malabsorption and nutrition. **Part II.**

Guest editors *I. H. Rosenberg and N. S. Scrimshaw*

Session IV—Intestinal absorption as a determinant of growth, development and nutritional status. Preliminary reports of field studies.

- 1225 Preface. *I. H. Rosenberg and N. S. Scrimshaw*  
 1226 Introduction to Part II. *N. S. Scrimshaw*  
 1227 Xylose malabsorption and growth retardation in East Pakistani children. *G. P. Harper*  
 1230 Pediatric xylose malabsorption in East Pakistan: correlation with age, growth retardation, and weanling diarrhea. *L. P. Einstein, D. M. Mackay and I. H. Rosenberg*  
 1234 Malnutrition and malabsorption: studies in the Punjab. *B. Cowan*  
 1236 Investigations concerning the prevalence of nutritional deficiencies and intestinal malabsorption among rural populations of the West Indies. I. Methodology. *F. A. Klipstein, C. Rubio, N. Maldonado and S. Montas*  
 1241 Discussion and summation—Session IV

Session V—Impact of enteritis and other infections upon nutritional status

- 1248 Studies on the mechanism of sugar malabsorption in infantile infectious diarrhea. *C. Lugo-de-Rivera, H. Rodriguez and R. Torres-Pinedo*  
 1254 Interrelated changes in host metabolism during generalized infectious illness. *W. R. Beisel*  
 1261 Urea metabolism in malnourished and recovered children receiving a high or low protein diet. *D. Picou and M. Phillips*  
 1267 Influence of recurrent infections on nutrition and growth of children in Guatemala. *L. J. Mata, J. J. Urrutia, C. Albertazzi, O. Pellecer and E. Arellano*  
 1276 Malabsorption syndrome in ascariasis. *K. Tripathy, E. Duque, O. Bolaños, H. Lotero and L. G. Mayoral*  
 1282 Discussion and summation—Session V

**Number 12, December 1972**

**Symposium**Intestinal microecology. Guest editor *M. H. Floc'h*

## Part I—Techniques

- 1291 Preface. *M. H. Floc'h*  
 1292 Introduction to intestinal microecology. *T. D. Luckey*  
 1295 Evolution of anaerobic methodology. *A. C. Sonnenwirth*  
 1299 Theoretical basis for anaerobic methodology. *D. J. Hentges and B. R. Maier*

- 1306 Identification of anaerobic bacteria. *W. E. C. Moore and L. V. Holdeman*  
1314 Roll-tube techniques for anaerobic bacteria. *L. V. Holdeman and W. E. C. Moore*  
1318 Use of syringe methods for anaerobiosis. *J. M. Macy, J. E. Snellen and R. E. Hungate*  
1324 Commentary on the Hungate technique for culture of anaerobic bacteria.  
*M. P. Bryant*  
1329 Use of anaerobic glove boxes for the cultivation of strictly anaerobic bacteria.  
*A. Aranki and R. Freter*  
1335 Comparison of techniques for isolation and identification of anaerobic bacteria.  
*V. R. Dowell, Jr.*
- Part II—Host-microbe interactions
- 1344 A review of secretory immune mechanisms. *A. G. Plaut*  
1351 Human antibody to *Bacteroidaceae*. *J. D. Quick, H. S. Goldberg and A. C. Sonnenwirth*  
1357 Source and protective function of coproantibodies in intestinal disease.  
*E. S. Fubara and R. Freter*  
1364 Immunological responses and microorganisms indigenous to the gastrointestinal tract. *R. D. Berg and D. C. Savage*  
1372 Associations and physiological interactions of indigenous microorganisms and gastrointestinal epithelia. *D. C. Savage*  
1380 Studies on the indigenous gastrointestinal flora of Guatemalan children.  
*L. J. Mata, M. L. Mejicanos and F. Jiménez*  
1391 Effect of a partially chemically defined diet on normal human fecal flora.  
*H. R. Attebery, V. L. Sutter and S. M. Finegold*  
1399 Intestinal bacteria and cancer. *B. S. Drasar and M. J. Hill*  
1405 A prospective study of infections in penetrating abdominal trauma.  
*H. Thadepalli, S. L. Gorbach, P. Broido and J. Norsen*  
1409 The metabolic and nutritional consequences of bacterial overgrowth in the small intestine. *G. Neale, D. Gompertz, H. Schönsby, S. Tabaqchali and C. C. Booth*  
1418 The effect of bile acids on intestinal microflora. *M. H. Floch, H. J. Binder, B. Filburn and W. Gershengoren*  
1427 Mechanisms of *Shigella* pathogenesis. *S. B. Formal, P. Gemski, Jr., R. A. Giannella and S. Austin*  
1433 *Shigella*, indigenous flora interactions in mice. *B. R. Maier, A. B. Onderdonk, R. C. Baskett and D. J. Hentges*  
1441 Alteration of *Shigella* pathogenicity by other bacteria. *M. Nakamura*  
1452 *Bacteroidaceae* endotoxin detection by *Limulus* assay. *A. C. Sonnenwirth, E. T. Yin, E. M. Sarmiento and S. Wessler*  
1455 Plasmids in intestinal bacteria. *C. L. Gyles*  
1459 Enteric bacterial interactions in insects. *B. Greenberg and M. Klowden*  
1467 Diet and the equilibrium between bacteria and yeast implanted in gnotobiotic rats. *P. Raibaud, R. Ducluzeau, M.-C. Muller and G. D. Abrams*  
1475 The avian intestinal flora with particular reference to the possible ecological significance of the cecal anaerobic bacteria. *E. M. Barnes*  
1480 Relationships between protozoa and bacteria of the alimentary tract.  
*R. E. Hungate*  
1485 Interactions among intestinal microorganisms. *M. P. Bryant*  
1488 Needs for illuminating the microbiology of the lumen. *C. Lamanna*  
1495 Nutrition news  
1497 Subject index  
1504 Author index
